## List of Patrons.

---

The following leading citizens commend the work of the Maryland Workshop for the Blind.

We whose names are undersigned, heartily endorse the work, being familiar with the institution, and appreciative of the excellent work which it has been performing in removing the blind from dependency to self-support, and changing their mental attitude from despair to hopefulness.

Report of the Board of Directors of the Maryland Workshop  
For the Blind.

---

*To the Honorable Emerson C. Harrington,  
Governor of Maryland:*

On behalf of the Board of Directors of the Maryland Workshop for the Blind it is my pleasure to present the detailed statement of the work of the Shop which forms a part of this report, signed by our Superintendent and Manager.

To add any words of mine is running the risk of repeating what they have clearly stated, but I cannot refrain from calling attention to the feature of our work which I think justifies the State of Maryland in making liberal appropriations for our support; the fact that it transfers residents of the State from dependence to a condition more or less approaching to self-support, in some cases entirely reaching it.

No one of even average sympathy can refuse those who are handicapped in the struggle of life by the loss of one of their faculties. The Workshop for the Blind not only appeals to this common sympathy which would respond to the call of need, but the form of appeal is not for a dole to temporarily meet the common need but is a proposal to so treat the one with limitations that he shall have the same chance as other citizens of the State. This appeal is to the sentiment and sound judgment alike and should be irresistible.

We invite the most thorough inspection of our institution and welcome visits from those interested, the spectacle of nearly two hundred cheerful blind persons endeavoring to fit themselves for self-support, being one that warms the heart. And when we remember the visits to the homes of the teachers we can form some idea of the amount of good being done with the relatively small sum given by the State, the volume of which might be much enlarged if a larger appropriation were available.

With great respect,

JOHN R. CARY, President.

## Report of the Maryland Workshop For the Blind.

From October 1, 1917, to September 30, 1919.

GENTLEMEN: We submit the following report of the activities and resources of the Maryland Workshop for the Blind, coupled with a frank statement of its needs. "Let us have faith in each other, and keep the faith in ourselves," so what follows is accurate, and we believe just.

During the years between October 1, 1917, and September 30, 1919, the Workshop received \$26,500 from the State, 194 persons are on our pay-roll for that period, to whom we have paid in salaries and wages to blind men and women \$69,068.79. Our Home Teachers visit and instruct 192 blind persons. We have, besides, 224 on our waiting list. Total number of blind persons listed, 610.

On our roll are 42 women and 152 men, drawn from the following sections of the State:

Alleghany County -----	3
Anne Arundel County -----	8
Baltimore City -----	153
Baltimore County -----	6
Carroll County -----	1
Cecil County -----	3
Charles County -----	1
Dorchester County -----	1
Garrett County -----	1
Harford County -----	2
Howard County -----	1
Kent County -----	2
Montgomery County -----	1
Queen Anne County -----	3
Somerset County -----	1
Talbot County -----	1
Washington County -----	1
Outside the State -----	5
Total -----	194

Not included in any of these numbers are seven blind soldiers from the Red Cross School for Blind Soldiers at Evergreen, at present receiving instruction in braille, type-writing, music, chair-caning, piano tuning, and hammock making at the Workshop. The management has placed all our resources, equipment, and the advantage to be gained from years of experience in training the blind, at the service of those in charge of The Red Cross School.

This glad cooperation has been greatly appreciated.

PUPIL OF HOME TEACHER LEARNING TO CROCHET

HAPPY BLIND WOMEN AT WORK, AT THE MARYLAND WORKSHOP FOR THE BLIND

In our Broom Shop, which receives no specific appropriation, are 34 blind men who have received in wages \$26,461.77. This makes a grand total in salaries and wages of \$95,530.56 to blind persons.

The following list of articles made during this period, show manifest and manifold activity:

Baskets made -----	2,229
Brooms made -----dozen	22,600
Chairs recaned -----	22,477
Mattresses remade -----	250
Pillows remade -----	35
Pianos tuned -----	1,436
Hammocks -----	26
Mops made -----	4,264
Rugs woven -----	600
Rugs braided -----	3
Druggets and runners -----	31
Bags woven -----	20
Bibs woven -----	45
Pillow tops -----	5
Scarfs woven -----	5
Trays woven -----	10

These last have been crucial years of struggle and achievement. Big events, like the great war, must be looked upon with a large vision. Tragic as it was, lamentable beyond human experience, it has waked up the community from its deadly lethargy to a keen realization of the needs of the handicapped; and to a sense of its responsibility in providing opportunity. "The civilization of the world is the business of ALL who live in the world." That government which gives the toiler the benefit of his own diligence is more beneficent than that which guarantees protection only to the slothful from the consequences of idleness.

The pitiful condition of our brave American boys, returned to our Base Hospitals, where they receive almost incredible relief and well merited sympathy, has turned the searchlight of justice upon that larger class of civilian blind, many of whom have lost their sight through illness or accident, the latter frequently due to the gross carelessness of others.

In so far as the State recognizes its duty in making education compulsory for the child, so surely should those handicapped by loss of sight (many of whom have dependents) be given opportunity for training, that they may continue normal, self-supporting citizens, retaining their manhood, and not become a charge upon the State.

Ten years ago, in fact any time before the Great War, a handicap of \$3.00 per week while learning, was sufficient to

attract a blind man to our Workshop. Owing to the High Cost of Living, with which we are all only too familiar, it is imperative that this sum be doubled. One hundred men and women need \$300.00 each per year, in order to insure a minimum wage of \$6.00 per week.

We have, as previously stated, 194 persons on our roll; 192 taught in their homes; 224 on our waiting list.

In this connection, it may be observed, that Home Teaching is among the most beneficent of the various activities in behalf of the blind which radiate from the Workshop. The work rests on a solid foundation of practical knowledge, intuition, and experience, directed by the vitally interested. Miss Jane Christopher and five capable assistants go to the remotest corners of the city and state, in their tireless efforts to relieve the tedium inevitable to the unemployed blind. They teach them to lead normal lives, to see with their fingers, and best of all, to work; real work, up to the standard, which is sold at the Maryland Workshop, 501 W. Fayette Street, and every cent above cost of raw material, is paid to the blind worker.

Freude says: "Labor is the inevitable lot of the majority and the best education is that which will make their labor most productive."

The policy of employing the blind as teachers has been continued. Of the twelve persons employed as such, only one has good sight.

The discouraged will give heed to instruction from their fellow blind more readily than to one whom they suppose knows their condition only theoretically. We are greatly interested in follow-up work; in finding positions for competent blind people and are grateful to the following firms and institutions where opportunity has been given:

McCormick Drug Company	7
Knabe Piano Company	5
Stieff Piano Company	3
Wise Bros.	3
Bagby Furniture Company	2
Elks' Headquarters	2
Sheppard & Enoch Pratt Hospital	2
Church Home and Infirmary	2
Women's Hospital	2
Hecht's Reliable Store	2
Y. M. C. A.	2
Y. W. C. A.	2
Hebrew Hospital	1
National Exchange Bank	1
War Camp Com. Club	1
Peabody Institute	1
Baltimore Music Store	1
Hammann Levin Company	1

National Building Supply Company-----	1
Mann Piano Company-----	1
Edgewood Arsenal -----	1
Maurey, Donnelly & Co-----	1
Bartlett-Hayward Company -----	26

What has been done in the past ten years is evidence of what may be done, with adequate financial support. We have won the sympathy of the entire community, but if sympathy and justice be weighed in the balance, let justice outweigh sympathy.

A visit to the Maryland Workshop for the Blind is the best way to insure attention to our needs as a whole, and of the need of the individual in particular; and to command respect for what has been accomplished through the vision and efforts of those who have had the welfare of the blind at heart.

Inasmuch as the Amalgamated Clothing Workers have fixed \$20.00 per week as the minimum wage for women, it would seem that \$6.00 per week is a reasonable stipend for a blind man, who is in many cases dependent upon a guide, or is forced to pay extra carfares to and from work. All well-established charitable agencies recognize the vital necessity of work; its remedial and saving quality.

A chance to train blind men and women, and to ensure a fair minimum wage is all we ask. We can make them self-supporting in many cases. Our records, which are an open book, prove this.

A visit to our Workshop will convince all of our wise legislators of the urgent need of an appropriation of \$25,000.00 per year for the ensuing two years, and will prove that it is the best possible investment of that amount of State Funds.

The policy of giving exhibitions throughout the City and State has been continued.

## Endorsements.

---

I unhesitatingly say that from my own personal knowledge, and as Chairman of the Finance Committee of the Senate, Sessions 1912-1914, that no other state aided institution has done better work for the dependent blind citizens of the State, than the Maryland Workshop for the Blind, located at Fayette and Paca streets, Baltimore City. The State can well afford to be fair and just in its material assistance for this important work. It is helping those who earnestly, honestly try to help themselves. Every dollar yields a great return. I commend this institution to all succeeding legislatures, and to those of our citizens of means as an object of the most generous benevolence.

PETER J. CAMPBELL,  
President of Maryland Senate, 1916.

I heartily approve of the projected enterprise, in behalf of the blind, as most beneficent in its scope, and which is intended to benefit a class of afflicted people, who always command the sympathy of humanity.

J. CARD. GIBBONS.

I have personal connection with the Maryland Workshop for the Blind, as an annual contributor and friend; and am in intelligent position to testify to the excellent worth of the Christian and philanthropic work of the institution. The purpose of the work, and its results are pre-eminently proper, pious and practical. No one can contribute to a more worthy cause.

JOHN G. MURRAY,  
Bishop of Maryland.

It gives me pleasure to endorse unqualifiedly the highly commendable work done by the Workshop For the Blind. I know from experience, its manifold beneficence to the afflicted. Were it not for its endeavors, the blind, without exception, would be dependents. But the Workshop For the Blind makes them, who see not, self-supporting. I appeal in behalf of a Godly undertaking, to the generosity of our community.

WILLIAM ROSENAU,  
Rabbi Eutaw Place Temple.

### STATEMENT OF OPERATION

As Submitted by Chas H. Schnepfe, Certified Public Accountant.

December 16, 1919.

*President and Board of Directors,  
Maryland Workshop for the Blind,  
Baltimore, Md.*

GENTLEMEN:—I beg to submit herewith statement showing result of operation of the Maryland Workshop for the Blind, for two years ended September 30, 1919, and Balance Sheet showing the financial condition as at September 30, 1919.

These statements are based upon audit of the books of the Workshop, and, in my opinion, reflect true result for the period.

Respectfully submitted,

(Signed) CHAS. H. SCHNEPFE, JR.

Certified Public Accountant.
